ROOFING 101:

POWER YOUR FUTURE WITH ATTYX!

Understanding Your Roof

- **Components:**

Your roof is a complex system, typically consisting of shingles, underlayment, flashing, drip edges, and vents. Each component plays a crucial role in protecting your home from the elements.

- **Roofing materials:**

At Attyx, we exclusively use architectural grade materials, known for their superior durability, weather resistance, and aesthetics. Our materials come with a 50 year warranty so you're not having to stress anytime a storm rolls through.

- **Roofing styles:**

There are various roof styles, each with its own advantages and disadvantages. We'll work with you to determine the best style for your home's design and local climate.

The Attyx Roofing Difference

1

Complete tear-off

We don't believe in shortcuts. We completely remove your old roof down to the bare plywood deck before installing the new one. This ensures a clean slate and eliminates the risk of hidden problems lurking beneath old shingles.

2

50-Year warranty

We stand behind our work with an industry-leading 50-year warranty on all new roofs. This comprehensive warranty covers material and labor defects, giving you long-term peace of mind.

3

Expert Installation

Our team consists of highly trained and experienced roofing professionals who prioritize quality and meticulous attention to detail. We use the latest techniques and industry best practices to ensure a flawless installation.
